EDUCATION

University of Cincinnati, Cincinnati, Ohio **Graduating: May 2031**
Bachelor of Science, Computer Science **GPA: 4.0**

- Primary Coursework: Calculus II, Computer Science I & II, Python Programming, Object-Oriented Programming

SKILLS

Programming: C++, Java, Python, JavaScript, HTML, CSS, MATLAB, SQL
Frameworks: React, MongoDB, REST APIs, Node.js, NumPy, Matplotlib
Developer Tools: Git, Version Control Systems, VS Code, PyCharm, IntelliJ IDEA

PROJECTS

Autonomous Path Planner **May – Jun 2026**

- Architected a trajectory generation suite to compute time-optimized autonomous routes for competitive VEX U robotics, reducing overall path execution time and improving autonomous consistency.
- Engineered the generation of cubic and quintic Hermite splines to model complex 2D motion profiles and ensure continuous navigation.
- Implemented forward and backward kinematic passes over generated paths to strictly enforce hardware-specific velocity and acceleration constraints.

Rocket League Competition Discord Bot **Dec 2023 – Jan 2025**

- Built a custom automated JavaScript Discord bot using Discord.js to manage and scale a competitive esports community to over 1,500 active members.
- Integrated Ballchasing API to extract and parse match data, and stored player and match statistics using MongoDB.
- Utilized Google Sheets API to query the database and dynamically generate automated player analytics and community leaderboards to increase server engagement through award ceremonies.
- Drove collaborative feature development and codebase scalability using GitHub.

EXPERIENCE

Prism Robotics | Cincinnati, Ohio **Jun 2026 – Present**
Founder, Treasurer, & Developer

- Co-founded a 501(c)(3) nonprofit VEX U competitive robotics organization, managing software development, competition driving, and technical documentation.
- Designed and deployed the organization's official website using HTML, CSS, and React to manage team information, showcase technical portfolios, and attract sponsorships.
- Spearheaded a fundraising campaign utilizing Givebutter to successfully secure capital for travel and hardware components, raising over $1,500 so far.
- Served as a certified VEX Robotics Official (Head Referee, Judge Advisor, Scorekeeper), ensuring compliance with the rules and managing event operations at large regional tournaments, impacting 20+ schools.

ACTIVITIES & VOLUNTEER WORK

College Club Memberships **Aug 2026 – Present**

- Active member of IEEE, ACM, Camp Kesem, Forging Club, and the Nonprofit Organizational Leadership Club

Independent STEM Mentor **Aug 2025 – Mar 2026**

- Mentored 35+ local middle school students across 5+ schools (350+ hours) in programming and engineering design, coaching teams to win awards at the Kentucky State Championship and qualify for the VEX World Championship.

Community Volunteer

- Volunteered at 11+ events, managing the digitalization of records and coordinating event logistics for over 75 hours of community service.

AWARDS & HONORS

Cincinnatus Scholarship (Merit-based university scholarship) **Aug 2026 – Present**
S-STEM Scholarship (1 of 12 annual recipients) **Aug 2026 – Present**
City of Erlanger Post-Secondary Scholarship (Awarded to the top student in the city) **June 2026**
Ben Kossenjans Computer Science Award (Awarded to the top graduating senior in CS) **May 2026**
VEX Robotics Kentucky State Champion & Excellence Award **Mar 2026**
